Installation

1. Run the installer in the installer folder
2. Download the livery pack from www.commerciallevel.com/liveries , or if you have a CD version, it will be in the **/installer/livery_pack** folder
3. Run that livery pack installer.
4. You are ready to fly!

Support

We have support forums located at www.commerciallevel.com

For support issues which have private information such as payment details, please send email to info@commerciallevel.com

Repainters

We have included a paint kit, you are allowed to use it. You are Not allowed to use livery material of official or unofficial airline repaints.

You can upload to websites as long as this readme is included and only the textures. DO NOT upload the model, sounds, panel or any other file which is not a texture.

FAQ

I do not see any airline liveries?

Please install the livery pack as explained in the installation instructions above

I cannot taxi right?

Please follow our manuals for correct speeds.

I am not in the cabin?

Correct, you will need a camera utility. If you do not have one, there is a free one available at www.flight1.com

Or, you can manually change the eye point. See below.

The virtual cabin is located between the wings. This means that when you use the cabin & wingview model you have to walk to the cabin before you can view it like you should. This can be done with programs such as Active Camera, Fscamera, Walk & Follow etc.

You can also manually adjust the eyepoint in the aircraft.cfg however this will make the location of the eye totally wrong in the VC model. Please be aware of this.

If you do want to adjust the value manually. Please do the following:

- Go to your main FS folder.
- Open the folder named Aircraft
- Choose the folder CLS_A345
- Open the Aircraft.cfg with notepad.
- Look for the entry named: [Views]
- Change it to: eyepoint= 24, -1.000, -0.475
- **Save**

Copyrights

CLS will not use any information given by our customers for any other purpose than the purchase process. Only those who need to know will have access to private information.

CLS will never sell, or offer for sale any information of our customers.

CLS will not be responsible for any computer damage caused by our website, or our products.
